

### PRECIPITATION EVENTS AT LAND APPLICATION SITES (REQUIRED INFORMATION)

State Form 52382 (9-05)

National Pollutant Discharge Elimination System for Concentrated Animal Feeding Operations

**INSTRUCTIONS:**

*This sheet may be utilized to document information regarding precipitation events at land application sites that is required to be maintained in the facility operating record. Facilities may choose to maintain and present the information in a different format. If an alternate format to present information is chosen, the format must be clearly organized and legible. This sheet is meant to serve as quick reference regarding the requirement to document precipitation events at land application sites and to assist you in those activities. In the table below, indicate whether a precipitation occurred, and in the "Details" columns elaborate on the type and scale or actual amount of precipitation received.*

### Precipitation Events at Land Application Sites Regulations:

327 IAC 15-15-4(h)(3) For land application areas, precipitation events at the time of application and for twenty-four (24) hours prior to and following application must be maintained in the operating record for a period of five (5) years from the date of permit coverage.

[illegible]
